It is not only well researched but the authors' own experience to gain their perspectives is really admirable. They went to the belly of the beast! 0 of 1 people found the

following review helpful. FunnyBy Ben PFirst off, it's meant to be humorous. It's pretty funny, and it includes tips on how to deal with each of the respective groups in creative or funny ways. It's a good book.2 of 5 people found the following review helpful. Makes Me Want To Go On Safari!By Noahtorious B.I.G.This book is absolutely phenomenal. It skewers just about every type of lefty reprobate that pollutes American political discourse. With that being said, I feel they left out two important groups of protesters:Hispactivists/Mexivists: The Pro-Hispanic racists of La Raza and/or MEChA open-border types who believe in La Reconquista of the American Southwest as espoused by (among others) Mexican intellectual Carlos Fuentes. Their chants include but are not limited to: "No cruzamos la frontera, la frontera nos cruzo!"/"We didn't cross the border, the border crossed us!" They are to Hispanics and Latinos what Blacktivists are to African-Americans.Phony Asians: While rare (Asians tend to be the 'model minority'), they tend to congregate around such causes as "Independence for Hawaii/Justice for Native Hawaiians" or protesting the Yellow subway line in metropolitan Atlanta, Georgia, in early February of 2010.If the boys of ProtestWarrior make a second edition (revised paperback edition?), they would need to add these two species to the already impressive field guide. Also, color pictures would be a nice touch.

Here's everything you need to know about Anarchists, Peace Moms, Granolas, and many other types of left-wing wackos...so you can annoy them before they annoy you!Dreadlocks. Megaphones. The stench of patchouli oil and bad ideas. Who are these ridiculous characters clogging our streets and college campuses, protesting everything from "American imperialism" to genetically modified food to tax cuts?And how can an articulate, employed, sane person like yourself glean entertainment value from their antics?Kfir Alfia and Alan Lipton, the founders of ProtestWarrior, America's leading antiactivist organization, have spent years studying the eighteen distinct species of leftist protesters in our midst-everyone from Blacktivists to Hacktivists to Islamothugs. And in this hilarious guide, they will teach you:How to easily differentiate among similar species like Communists, Anarchists, and College Students.How to recognize the subtleties of the Performance Artist versus the Dylan Wannabe and the Acid Freak versus the Granola.How to confront, tease and taunt these wackos with witty comebacks, demolishing zingers, and infuriating facts. (Here's one: "War never solved anything ... except for slavery, fascism, Nazism and communism!")A Field Guide to Left Wing Wackos is the manual you want at your fingertips to defend yourself and the American Way-and have some fun while you're at it.
