It measures 7 x 9 inches and is glue bound into a laminated cover with gold foil accents. Featuring black and white line drawings, this book is appropriate for adult colorists on all skill levels.Paper:The paper in this book is bright white and medium thickness. All pages are double sided and non-perforated. Most mediums should be okay to use, but markers may cause bleedthrough. As always, be sure to test any new products before applying them to your picture, and place several sheets of blotter paper behind to prevent pressure indents or color transfer.Artwork:As implied by the title, "A Million Owls" focuses mainly on birds drawn in the artist's iconic style. Inside you'll see owls in a variety of scenes. These include: tea parties, living rooms, deserts, woodlands, kitchens, airships, boats, and more. There are also rabbits, hamsters, dogs, bears, and cats interspersed

throughout the pages for variety. There are approx. 18 double spreads, and much of the artwork merges into the binding, making it impossible to remove. Line weight and detail vary slightly between images, and print quality is decent(I did have a few pages with smudges in my copy). Picture completion time should range from 4-10 hours(may be slightly different for each individual). Overall, this is a fun book with lots going on. It would be best suited for colorists who enjoy cute or funny imagery, and fans of the Ms. Mayo's previous work.1 of 1 people found the following review helpful.
