From Connecticut Law Book Company : A Path in the Law before purchasing it in order to gage whether or not it would be worth my time, and all praised A Path in the Law:

From Dean Hugh Macgill, University of Connecticut School of Law: This book is not for those who, conditioned by the O.J. Simpson trial or tabloid exposes, like their law loud, shallow and scandalous. But for those who are genuinely curious about how the normal functions of law play out in our sharded communal experience, and how the life of one thoughtful, intelligent and optimistic man was shaped by a devotion to law's possibilities, this book is deeply satisfying.
