engaging account of where life has taken him. Having only been to Vermont once, I am ready to hop on a plane and head north! 2 of 2 people found the following review helpful. A fun book from a great writer By T. Rosenbauer How could a book by a Georgia boy who played football for the Saints, owned a dairy farm, and then became a magazine editor in Vermont be dull? Fersen writes with a strong wit, a sensitive touch, and an outdoorsman's realism. This is a witty and thoughtful book that makes you laugh out loud, and also gives an outsider's insight on what it's really like to move to the mountains of Vermont and live there and raise your family, not just to visit it for a weekend. 1 of 1 people found the following review helpful. enjoyable! By Richla I came across this title recently, and decided to give it a chance: it was an easy read, loaded with humor and observations, resulting in a number of laugh-out-loud moments. Very enjoyable. I'm not sure if Mr Fersen has more stories to tell, but I wish he would try.

He grew up in the Georgia woods, played football for the New Orleans Saints, spent a few years as a ski bum, put in his time as a Vermont farmer, and eventually sold his farm to take a desk job. Through all this, writer Paul Fersen has never lost his sense of humor or appreciation for a good hunting dog. These are tales of becoming a New Englander while remembering a strange and distant life in the rural South, of building one's own home and raising a family, of finding the best dog ever, of catching the biggest fish with his smallest son, and finding respite in the field with dog and duck. A wonderful collection of stories outdoorsmen and women will laugh along with, in small doses or all at once. Paul Fersen is a longtime staffer for Orvis, and who has written a regular column for Stratton and frequently contributes to Gray's Sporting Journal. He lives in Dorset, Vermont.
