I would prefer higher quality paper not having pictures on both sides of the page. Still, there's a lot of fun to be had here. 0 of 0 people found the following review helpful. Five Stars By Customer My boyfriend loves it because he collects all things Alien. 0 of 1 people found the following review helpful. Good, not great. By A. Yolland Relatively thin paper, double sided images. Some illustrations are gorgeous, some are pretty crude. Pretty balanced selection of images from the four alien films, (which is to say, WAYYY too many from Resurrection.) No images from Prometheus or Covenant. Seems like more images of Ripley and human characters than Xenomorphs.

Forget relaxing mandalas and sharpen your red pencils for the official Alien Coloring Book! From facehuggers to xenomorphs and from Ripley to Jonesy, all your favorite creatures and characters and their most memorable scenes can be found right here. As for the color scheme? Well, that's in your hands now...
