Boz : All About Cruising before purchasing it in order to gage whether or not it would be worth my time, and all praised All About Cruising:

Hilarious adult cartoon book, All About Cruising, explores the funny side of going on a cruise ship holiday. Author Boz exploits cruising holidays in cartoon form and highlights situations that the glossy brochures fail to mention. Seasoned ocean cruisers will identify with many of the situations depicted in the book and will often relate them to their own experiences. Once the domain of the very rich and famous, cruising is now within the reach of many of us. Consequently, there has been a growing demand for this kind of holiday and the industry had responded by building bigger and better ships to satisfy the demand, much to the amusement of Boz. All About Cruising will appeal to those who are familiar with cruise holidays and enjoy humourous adult cartoons.

About the AuthorBoz first sailed the world with Her Majesty's 'Grey Funnel Line' and once accidentally scraped the immaculate paintwork of the Royal yacht whilst sailing a whaler in Portsmouth Harbour. Having sailed a variety of craft for over fifty years, he now sees the humour of going to sea in cruise liners, hence the birth of All About Cruising.
