I thought it was clever and funny and the illustrations were great. I love the size and simplicity. It's pretty dark but that's what I find funny. It's not a children's book, but very easy to read. I got through it in a few minutes.0 of 0 people found the following review helpful. All my freinds are deadBy Kindle Customerm memeThis small book is perhaps not for everyone but it made me laugh and I enjoyed sharing it with several of my selected friends. It is a quick book to read and the title was well selected. The humor is as one of my friends said sick humor! I really enjoyed this book.

If you're a dinosaur, all of your friends are dead. If you're a pirate, all of your friends have scurvy. If you're a tree, all of your friends are end tables. Each page of this laugh-out-loud illustrated humor book showcases the downside of being everything from a clown to a cassette tape to a zombie. Cute and dark all at once, this hilarious children's book for adults teaches valuable lessons about life while exploring each cartoon character's unique grievance and wide-eyed predicament. From the sock whose only friends have gone missing to the houseplant whose friends are being slowly killed by irresponsible plant owners (like you), *All My Friends Are Dead* presents a delightful primer for laughing at the inevitable.
