Jeff Wells : All My Patients Kick and Bite: More Favorite Stories from a Vet's Practice before purchasing it in order to gauge whether or not it would be worth my time, and all praised All My Patients Kick and Bite: More Favorite Stories from a Vet's Practice:

0 of 0 people found the following review helpful. Easily five stars By S. Zimmeroff Dr. Wells is an excellent writer and either has a phenomenal memory or has kept great notes. You love animals or you wouldn't even be reading this

review. That said you will have a great read if you get this book. Dr. Wells loves animals and has a wonderful instinct for how to deal with some of the humans who turn their pets over to him for whatever repairs are needed. The short vignettes about different animals and circumstances kept my interest to the very end.0 of 0 people found the following review helpful. Very good bookBy PocahontasI love animals of all kinds. In think being a vet must be a very satisfying job.I don't think I would enjoy the night emergencies.0 of 0 people found the following review helpful. Fun ReadingBy Constant ReaderI always enjoy books about animals and though I do not think Jeff Wells is a great writer, his two books were fun reading and I would bet he is a good Vet. It takes more than just going to Vet school to make a vet, much like it takes more than just going to medical school to be a doctor. Have a calling and a passion for what you choose to do in life makes it worth the effort and I think the Jeff Wells has this for sure. I think that having a practice that cares for small pets like dogs, cats etc is far different experience than a practice that cares for large animals as well.Large animals like horses, cows, llamas and the like is a totally different experience and I admire the men and women who do it. It takes courage and a lot of bravery to face down a spitting llama , a scared cow or a injured horse.

The highly amusing, uplifting and entertaining follow-up to All My Patients Have TalesIn All My Patients Kick and Bite, a second collection by our intrepid vet, Jeff Wells has his work cut out for him when he learns that llamas do not take kindly to having their toenails trimmed, dog owners in the medical field can be a real pain, Scottish Highland cattle stick together and just might run a vet out of their enclosure, and fixing an overly amorous burro often needs to be prioritized. We also find out what inspired a young Jeff to become a vet, and how his own pets enrich his life. Told with Wells's trademark humor and gentle touch, these and many other heartwarming, heartbreaking, funny and strange stories will give readers a whole new appreciation for those who care for our pets.
