**Michael Ebner : All The Talk Is Dead** before purchasing it in order to gage whether or not it would be worth my time, and all praised All The Talk Is Dead:

0 of 0 people found the following review helpful. Questionable plot lineBy BeckyI wish there was a way to describe this book without giving away any content in the book. I liked the book alright, but there were parts that dragged for me. I liked the main character in the book, but I have to say that his morals were questionable. If you have read the short synopsis of the book, then you realize that he pretends to be dead so that his music will be worth more money so

that he can eventually create and direct films. I can't imagine doing that to your family, maybe specifically to your mom, especially for money alone. The story line is also a little in-probable in that I can't imagine any music business wanting to kill their clients no matter what that musician has done. And to go to the extremes that this book describes is just way over the top. Is it a good book to read? I guess it is something to read if you haven't got a "good" book to read but I think it is just an average read. 0 of 0 people found the following review helpful. Total Waste of Time By L. Blake Borate It is extremely rare for me not to finish reading a book, I think it may have happened once before. I found this book a total waste of time and stopped reading about half way through. Life is too short and there are too many good books to put up with this poorly written, difficult to follow story about characters I could not care about in the least. 1 of 1 people found the following review helpful. Couldn't finish it! By grammyk I rarely not finish a book. I tried very hard to get into the characters and what the story was all about but it jumped around so much, I couldn't make heads or tails as to what was really going on. Not to mention the "F" word being used so often that it really had no meaning to the whole story. I'm sorry I didn't read ALL the one star comments before buying this book....thank goodness I got it free! Definitely not worth paying for.

Hotel concierge, Joel Wilson, has recently befriended the lobby pianist, Wade Farley and his path will soon change in ways he could never have imagined. Both have talent, ambition and big plans for other careers; Joel to be a film director and Wade to make it as a musician. But they'll need to go to great lengths to cut through the competition. Their scheme to hit the big time takes them to New York and kick-starts a dangerous game. Underestimating music mogul Lance Martin makes it a deadly one. He's the reason one hit wonders vanish from the face of the earth. His crew make it their profession to remove walking-talking problems. If only Joel and Wade would shut up already.

"The book's filled with laugh-out-loud lines and dialogue. The author having a Charles Portis-like gift for writing"
