BrownThis is a super cute book that has calmed me down numerous times with it's insight, humor and by reminding me my husband is not a "jerk" - he's just a Caveman!! It's so great to flip to any page and think, "OMG, that's MY husband TOO," and be able to laugh about it!I keep it sitting out in my home and when friends come over it's always a conversation starter. I'm thinking it would make a great gift for a bridal shower! It's great for any woman even if you don't *think* of your husband/partner as a traditional *caveman*. My husband is an educated tech geek and he still does "all things caveman!" Ha! Love it!0 of 0 people found the following review helpful. Not worth it!By CustomerNot a good purchase at all! 2-3 words per page and just not funny at all!0 of 0 people found the following review helpful. Hilarious, witty and insightfulBy BrianThis book is hilarious and witty and insightful. I know Laurie personally and it is really fun to see her creativity and excitement for life make it onto paper. I highly recommend this book for men and women alike.

Have men evolved much over the last 10,000 years? I don't think so. All Things Caveman is a cartoon sayings book of funny and insightful observations of the modern male in all his caveman glory. All men are cavemen. In other words, give a man a burger, a recliner and the remote control and he's a happy camper! This little book celebrates all things caveman. It will help you understand that hairy man walking through life beside you. -Within every man beats the heart of a caveman. -Evolution is just one big word that means caveman grew up. -Don't get all caveman on me. On second thought, do! -Cavewomen talk feelings. Cavemen talk football. -I think, therefore I'm hungry. -The Cow is a beast we can conquer. -Bread was invented to hold caveman meat in. -Football was created as caveman's excuse to hit people and get away with it. -To caveman, life is just one big scorecard. Inspired by the novel The Caveman Theory By Laurie Foxx.
