Timothy L. Worachek : Amazing Illustrations-25 Sea Creatures before purchasing it in order to gauge whether or not it would be worth my time, and all praised Amazing Illustrations-25 Sea Creatures:

This is a coloring book of science fiction images, all original, hand drawn using a very fine point black marker, and my imagination. They can combine many different images of components found in plumbing, electrical, technology, mechanical, electronics, carpentry, automotive, surgical, instruments, music, tools, equipment, inventions, outer space, universal, industry and many others. These images of couplings, hoses, nuts, bolts, fixtures, wires, antennas, satellite dishes, receptors, rectifiers, circuits, switches, capacitors, vents, all combined to create images such as planets, space ships, space stations, sea creatures, animals, insects, people, places, borders, frames, the alphabet, numbers, keyboard symbols, zodiac signs, cityscapes, space landscapes, holiday symbols, ornaments, portraits, logos, motorcycles, autos,

and more to still be illustrated. They are all combined and designed to collect information from other universes
