Her coloring books require more detail than a lot of other adult coloring books. I've been working on one design since last night. I project it will take me about 4 days to complete. I like to spend a few hours in the evening working on these. For this project, I'm using Ohuhu colored pencils. I'll post a completed pic when I finish this piece.This paper is semi thin. I wouldn't recommend using wet mediums. I would stick to colored pencils, crayons or pens. You might be able to use markers but I would remove the page before you do to prevent bleeding.I wish the pages were perforated. This would make removing them easier.Artistically the designs are unique. There were a few times where the pattern didn't repeat perfectly. Occasionally I stumbled on to missing or incomplete lines. I was able to correct the lines and the flaws in the pattern really didn't affect the final product.PROS:Well boundQuality coverUnique designsPaper is perfect for dry mediumsCONS:Not designed for wet mediumsPages aren't perforatedRatings (Out of five stars):Paper Quality: ???Book Quality: ???Design Quality: ???Design uniqueness: ???Value: ???Overall rating: 23 out of 25 stars / 4.6 Star AverageI hope you enjoyed this review. Unique and well drawn coloring images By Florida Kayaker This is an adorable kitten book that has a lot to color on each page. The book includes 34 pages of kitten and cat designs. The drawings are adorable and very well drawn. There are enough small details for gel pens and larger areas for brush pens or even markers. This is a smaller book, measuring 8.5" by 8.5". The designs are single sided on each page. The paper is a bit heavier than your average adult coloring book but I still use a blotting sheet when using markers. The pages are not perforated but I was able to remove them easily using an exacto knife. 0 of 0 people found the following review helpful. Really cute cat coloring book. By Sue Hobson This is a single sided coloring book with over 30 pictures of cats. I have seen a lot of adult coloring books, but this is my first one. I really like the art in this book. There are so many cute pictures. It's really relaxing for me to color. I can sit down with this while I'm watching tv or when my husband is watching his sports. I like the one sided pages, you can use marker and not worry about it bleeding to the other side. I would still put a blank sheet of paper in between pages if using markers. Good for both pencils, markers or pens. Pages are not perforated, so not easy to tear out. I am not really concerned with that, I'll leave the sheet in the book. I received this item in exchange for my honest, unbiased review. All opinions are my own.
