Nicotext : Amazing Space: 200 Complex Space Facts for People Who Like Graphs before purchasing it in order to gage whether or not it would be worth my time, and all praised Amazing Space: 200 Complex Space Facts for People Who Like Graphs:

Space is amazing. There are stars, moons, planets, black holes, comets and the odd two-headed creature, just on the other side of the sky. We float around in the middle of it without really knowing what is going on around the corner. In

Amazing Space you learn about 200 truly riveting and astonishing facts about space. Accompanied by genius illustrations they make the complex both fun and easy to understand. Have a blast, have a space fact.
