I love horses and ordered this book based on the fact there were horses in it. The illustrations are beautiful. There are a couple pictures that are so intricately detailed that it is impossible to color them (literally the patterns are too small for a pencil line to fit). The pages are thick. They take color very nicely. I always color with felt pens or markers as I like the boldness of the colors better. These pages take the color nicely and don't bleed through as much as cheaper books. Very nice book.4 of 4 people found the following review helpful. Fun for All AgesBy CustomerI purchased this mighty cool coloring book as a gift (shhh don't tell). There has been a lot of buzz about adult coloring books again lately so this was on my wife's Christmas list. I remember as a kid growing up we would get those intricate Mandala coloring pages which were so much fun to color.What I love about miss

Elsharouni's book is you really get a feel for the artists touch. There has been a lot of time and effort put into each page so as an on again off again artist myself I think this is a great way to support the artist, and bring back those fun memories of coloring as a kid. This book is great for kids and adults so if you love animals and have an urge to dust off those crayons or colored pencils this is a great place to start. 5 of 6 people found the following review helpful. 46 Very Lovely and Intricate Hand Drawn Animal Designs – printed on one side of non-perforated paper By iiiireader[[VIDEOID:596e6c62f75b0856b9c34d1ee52bcf1a]] This is a really lovely book of animal coloring designs. I have a number of other animal coloring books and yet I have never seen anything similar to this book. The animals are drawn very realistically and, for some, they remain realistic. In many cases, the artist has added “doodle” style patterns, designs, and flowers into the animal shape or the background to give the colorist a more fun and challenging experience. There are horses, giraffes, lions, birds, fish, elephants and many others. For the animal lover, this is a challenging and fun book that can take many hours to complete. The designs are quite intricate and some have a bit of gray scale shading already added to them. I like to use my Tombow water-based markers on this type of area to let the already done shading work with the color I have chosen. This type of coloring reminds me when “colorizing” black and white photos was popular a number of years ago. It is very much a similar concept. The designs are printed on one side of non-perforated paper. The binding is glued rather than sewn so you will have to cut pages out if you wish to remove them. Many of the designs merge into the binding, so you will lose some portion of the design if you cut the page out. In some cases, it would be portions of “framing” and would make your design unbalanced. I will probably not be removing pages from this book because of this reason. I was able to break the spine of the book and get it to lay fairly flat. All of my markers (see coloring medium below) bled through this paper. My gel pens did not bleed through but left a shadow on the back of the page. That didn't surprise me as the design is also noticeable from the back of the page. The gel pens did not take any extra drying time. My coloring pencils worked fairly well and according to the type of lead used. I will certainly be using some markers (especially my Tombows) when coloring these designs, so I will use a piece of chip board or card stock under the page that I am working on to keep the ink from leaking through the rest of the book. These are the coloring medium that I use for testing. If there is something else you feel I should be testing, please let me know and I will see if I can add it to my growing pile: Markers: 1) alcohol-based – Copic Sketch, Prismacolor double ended markers (brush and fine point), Sharpies (fine and ultra-fine) and 2) water-based – Tombows dual end markers (brush and fine point), Stabilo 88, Staedler triplus fineliners, and Pentel markers Gel Pens: Sakura, Fiskars, and Tekwriter Coloring Pencils: Prismacolor Premier Soft Core, Derwent Colorsoft, Prismacolor Verithins, and Faber-Castel Polychromos I was provided a free sample of this coloring book for test and review purposes.

Adult Coloring Book High Quality Animal Drawings. This animal adult coloring book contains 46 single sided coloring pages 8.5 x 11 in. This allows you to remove each page for framing or to use as coloring reference in a portfolio for example. This also helps reduce bleed through onto the other designs even if you are using markers, making this book suitable for everything from coloring pencils through to marker pens. I know that sometimes you will buy a book after being impressed by an amazing design on the cover, only to be disappointed with the outlined contents when you open it. I can assure you that all of the designs inside are high quality from start to finish. This adult coloring book of hand drawn animals contains a wide variety of lovable creatures. Horses, elephants, giraffes, fish, lions, leopards and so much more. The designs you will find inside also range from very easy simplistic designs right through to the more challenging and complicated, so there will be something to suit all tastes. Some images are shaded and some are not so you can have a go at different styles of coloring. If you love animals, then you are sure to love this adult coloring book. This book has 2 extra images that "Wild Creations" which has all the same images just square sized 8.5 x 8.5. Click "Buy Now" on top and get free shipping.

I just got into adult coloring books to help me relax after going through two major surgeries. I'm really glad these are not tiny and are very easy to color making it relaxing not frustrating. The animal creations in this adult coloring book are fun and whimsical and a joy to be a part of. Anyone looking for a fun relaxing adult coloring experience in any art medium from crayons to colored pencils to paints or markers will truly enjoy doing so in this book. What's especially nice is that while you're doing the coloring you can tear it away out of the book for easier coloring without ripping the page. The book is designed to allow you to take each page out carefully, color it as you want, making it unique and then being able to frame it for gift giving or in your own home. Great Coloring book especially for people who love animals and love real artwork. It has a lot of patterns but the animals are not cartoonish. They are drawn with a sense of realism but with a decorative quality. There are 46 pages to color. The backside is blank. Each page is 8.5 in x 11 in. Here are some of the images. The designs are quite intricate and some have a bit of gray scale shading already added to them. I like to use my Tombow water-based markers on this type of area to let the already done shading work with the color I have chosen. This type of coloring reminds me when "colorizing" black and white photos was popular a number of years ago. It is very much a similar concept.
