If you need to laugh - buy this book. If you don't find it hilarious then something is seriously wrong with you and you are beyond help.4 of 4 people found the following review helpful. It was everything I wanted it to be.By David GerischIt had pages that made me laugh out loud. It had

scenes that made me think: "Huh. I never thought of that." All in all, I am happy that I bought this book. If I were made of money, I would buy another copy, slice off the binding, and daily post a page to the company lunch room, with the names of my co-workers scribbled on the pages in this book. THAT would be entertainment for a year. :-)

A goat who wants to sell you some meth. A giraffe who might be violating his restraining order. An alpaca with a very dirty secret. A cat who's really mad at you for cancelling Netflix instant. These are just a few of the hilariously human animals you'll meet in *Animals Talking in All Caps*. Inspired by the wildly popular blog of the same name and including some of the site's best-loved entries as well as gobs of never-before-seen material, these pages provide a brilliantly unhinged glimpse into the animal mind.
