**Ben Sill, Cathryn P. Sill : Another Field Guide to Little-Known and Seldom-Seen Birds of North America** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Another Field Guide to Little-Known and Seldom-Seen Birds of North America:

0 of 0 people found the following review helpful. ... for my grandson because I thought it was so cool. I've had a copy of my own for ...By Janice GreenI bought this copy for my grandson because I thought it was so cool. I've had a copy of my own for several years. These birds and their explanations are great imagination stretchers, good for many laughs. Brilliant illustrations.1 of 1 people found the following review helpful. The Sills Do it Again, Proving they are for the Birds!By Karen P. RhodesI bought the first Field Guide to Little-Known and Seldom-Seen Birds after having seen a copy at a friend's house. I laughed myself silly, and said I had to have that book. I love a good satire. I grew up on MAD Magazine. The descriptions and drawings of the birds are reminiscent of field guides to birds. The descriptions skewer the field guides. They are hilarious. Anyone who has had any contact with birding will enjoy a

great laugh out of this book. 0 of 0 people found the following review helpful. Loved it! By Denise I literally laughed out loud. This is a book I'm sure any birder could appreciate, as long as they have a sense of humor

Once again the Sills provide a cockeyed view through the binoculars, zooming in on the birds in all their outrageous plumage: from the Mangrove Penguin, who has forsaken the arctic climes for the Florida sunshine, to the Grey-Green Lichen Mimic, a confounder of those who are sure they can tell flora from fauna. 32 full-color illustrations.

About the Author John Sill holds a BS in wildlife biology from North Carolina State University. He is a prize-winning and widely published wildlife artist. Cathryn Sill teaches elementary school in Franklin, North Carolina, and like her husband John, enjoys birding and nature photography. Ben Sill, John's brother, teaches civil engineering at Clemson University, and is an avid birder. From The Washington Post...a larky spoof!
