Ananth Panagariya : Applegeeks, Vol. 2: Weird Science before purchasing it in order to gage whether or not it would be worth my time, and all praised Applegeeks, Vol. 2: Weird Science:

0 of 0 people found the following review helpful. Another Great Applegeeks BookBy Brandon Parker BradleyGot mine from last night. Loved the extras and looking forward to re-reading all the strips with the added commentary on the bottom. Entirely consistent with the first volume and lives up to the great quality of that first volume. The extra chronicling the creation of the Eve miniature is great. I loved seeing what went into creating this on your side. Be interesting to see the sculptor side too, ... maybe for the next miniature? :)I definitely would vote for another miniature to go along with the Eve.0 of 0 people found the following review helpful. applegeeks.comBy The BMWs (Family Account)I followed AppleGeeks up until they stopped producing the comics. If you are an Applegeeks fan, you must add this this book, as well as volume 1: Freshman Year! Applegeeks is fun and entertaining! I really hope you enjoy it as much as I did!0 of 0 people found the following review helpful. omg omg omg!By Justin QuickIve waited for this

for sooo long! i love everything from the different little stories and how they work together into one big story, it flows very nicely.

All college students Jayce, Hawk, Alice, and Gina want to do is kick back and relax when they happen to land some downtime. And now that Hawk's latest creation, the sweet but dangerously superpowered android Eve, is finally starting to settle in with her motley crew of roommates, it looks like they'll actually get that chance! But a simple trip to the mall goes horribly awry, and when Eve goes haywire it's up to her newfound friends to calm her down, or shut her down! And if that weren't bad enough, the crew also find themselves contending with Jayce's megalomaniacal father, a giant robotic dinosaur, and Hawk's self-appointed nemesis, a five-year-old girl with dreams of world domination!Applegeeks.com web traffic averages 40,000 unique visitors per day and over 2.5 million page views per month.
