Simon Winheld : Are You Dissing Me?: What Animals Really Think before purchasing it in order to gage whether or not it would be worth my time, and all praised Are You Dissing Me?: What Animals Really Think:

0 of 0 people found the following review helpful. Fun!By Ohrwurm"Are you dissing me?" is a small format booklet with about 80 pages.I picked it up at a book store, thinking it was a children's book.The illustrations/graphics are amazing! Very natural and detail oriented.But what it really is, is a visual and hilarious compendium for grown-ups, targeted at the age bracket of Twenty-Somethings.It shows animals in all kind of situations uttering trivial or personal statements just like people on Twitter or the dinner guest you are placed next to, who is "opening up" and tells you "I just joined an improv class".There is a lot of comic reward in the juxtaposition of animal and inner monologue.Some of the statements are risky. Confessions of private passions. But it is exactly the stuff good buddies would tell one another over a bottle of beer. College humor at its best.0 of 0 people found the following review helpful. Funny and gorgeous.By Brian OlsenHilarious. Gorgeous illustrations paired perfectly (and somewhat surreally) with heartfelt yet banal confessions. I laughed out loud more than once (the spider call-back was my favorite). A quick read, but I found myself going through it again to look at the detailed images more closely. Buy the hardcover and leave it out where your guests can flip through it.1 of 1 people found the following review helpful. We laughed. We cried. My son pooped his pants.By HodorGreat work of literature, would read again.

A hippo worries that her MFA is totally useless. A cardinal has roommate problems. A hummingbird is eager to join a

social network. A bush baby teeters on the edge (You wanna throw down?!) Here for the first time are the innermost thoughts of our furry and feathered friends, who—it is finally revealed—humorously share the same anxieties, frustrations, and preoccupations as we do. Whether it's a raccoon fretting about his judgmental friends, a buffalo impatiently waiting for his dumplings, or a sloth contemplating a career in stand-up comedy, each colorfully illustrated critter captures a moment of modern flux—and together they create an irresistibly funny portrait of a kingdom both wild and amusingly familiar.

About the Author Simon Winheld is an illustrator and actor who lives in New York. This is his first book.
