Hysterically Funny!By A CustomerA friend of mine had this book sitting on her coffee table and I opened it up and couldn't put it down. This is one of the funniest parodies I've seen in years. I was laughing out loud from beginning to end. Just when I thought I had the whole thing figured out, Carpenter would come up with another unexpected and delightfully amusing twist. I've bought four and am giving them as Valentine's gifts. Even my mother (married for 50 years!) loves it. Does anyone know who Rachel Carpenter is? Has she written other stuff? I searched her name on and couldn't find other books but I'd sure love to read a novel if

she's got one. Wow! 0 of 1 people found the following review helpful. Charming, Sympathetic Fairy Tale for Grownup Girls By Kate Schultz Even if you're not single, there is remarkable charm and understanding in this little book about being a woman in what is STILL a remarkably marriage-obsessed society. It is a pleasure and a comfort to take part in poking fun of this reality. As ever, Author Rachel Carpenter's intellectual, dry wit comes through even in the context of the whimsical simplicity of the book. Anyone--male or female--who has ever actively looked for a life partner and consistently failed at doing so (in other words, everyone, right?) will gobble up these modern words of wisdom.

A charming parody of P.D. Eastman's beloved 1960 children's classic, *Are You My Mother?, Are You My Husband?* follows the adventures of Little Chick, who wakes up one day to discover she is thirty-horrors!-and-even worse-still single. Greatly concerned about her "eggs," Little Chick embarks on a quest to find a husband. Her search takes her from swing-dancing class (where all the guys are practicing for their weddings) to her high school reunion (where she remembers why she didn't meet her husband there in the first place), from the Internet (where she fails a Prince fan's mysterious lyrics test) to AA (where her self-esteem just isn't low enough). She even tries the oh-so-gorgeous guy at the gym, but it turns out he's looking for a husband, too. Ultimately, Little Chick comes to realize that love, like life, has to happen on its own timetable, and until it does, maybe being single isn't so bad after all. In the tradition of *Looking for Mr. Right* and *Even God is Single So Stop Giving Me a Hard Time*, this newest bit of chick lit is the perfect anti-Valentine for any woman who's been asked one too many times, "So, when are YOU getting married?"

About the Author Rachel Carpenter's nonfiction, humorous and otherwise, has appeared in outlets as varied as *Martha Stewart Weddings*, NPR, and *mcsweeneys.net*. Her fiction has run in several literary magazines, including *theatlantic.com* and *One Story*, and has been read on the BBC. A native of Philadelphia, she is currently at work on a novel. She lives in New York.
