Leonard Stegmann : My Jobs and Why They All Sucked before purchasing it in order to gage whether or not it would be worth my time, and all praised My Jobs and Why They All Sucked:

0 of 0 people found the following review helpful. A fun read!By Gordon H.An easy reading enjoyable book. Makes you appreciate the job you have or had when you see what someone else has been through. And he kept doing it!!!! Fun reading!!2 of 2 people found the following review helpful. THERE'S A JOB FOR EVERY PERSON, NO MATTER WHO HE/SHE ISBy Robin Leigh MorganThis book, written by Leonard Stegmann, takes its readers on a

wonderful, humorous and occasionally bitter memoir of an individual's journey to find that elusive perfect job all of us, both men and women, have looked for at one point or another in our lives. Although the author has gone to college it is surprisingly and unfortunately looks like he had any idea of what to do for a career, or what kind of work he should do until he would be ready to retire. The author selects several of the jobs he had worked at, and then telling his readers of an incident which had occurred to illustrate why it sucked as far as he was concerned. If I had any of those jobs I could see many of us, including myself, deciding to leave to seek employment elsewhere. Having been a Sociology major in my college days, I find that while this book seems to be a memoir of the author's work history it is also, in my opinion, a sad look at our society, especially as it pertains to our inner-city youth, who due to circumstances, have no idea what to do to earn money for their daily survival; so like the author they're always taking any dead-end/meaningless job which comes along. But, there's a happy ending to this book. The author apparently has found a career which he apparently seems happy to be working at and which in his own words, "Doesn't Suck." Leonard Stegmann has decided to become a humorist and write stuff like this book; which is why this book is getting 5 STARS. 0 of 0 people found the following review helpful. A very funny book full of snapshots from the author's long list ...By Mike Reuther A very funny book full of snapshots from the author's long list of low-paying and soul-sucking jobs. Stegmann takes you on a ride through a life of lousy work that certainly brought him pain and misery, but when seen through his rear view mirror, offered up some hilarious situations as well. Anyone who has ever had a bad job (and who among us has not?) will relate to his stories.

Yes, every one of them. In this book Leonard Stegmann shares the lifetime of misery that has been his employment history. Lots of laughs for you. Not so much for him. Also included: What's Annoying Me Now, The Fifth Floor Girls, Tales of Unspeakable Woe and more.
