**From Flame Tree Publishing : My Style Fashion (Notes Doodles)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised My Style Fashion (Notes Doodles):

A fun new journal to keep with you whenever you come across a fab pair of shoes you've got to have or want to record your fashion thoughts. Filled with great quotes and tips, it also has handy makeup hints and seasonal suggestions and funky illustrations to colour in for inspiration. With plenty of space to list your top outfits, fashion item wishlists and stick in magazine snippets and mood pieces, you'll be ahead of the crowd!
