Steve Jewell : My Wild Wife: a love story, sorta before purchasing it in order to gauge whether or not it would be worth my time, and all praised My Wild Wife: a love story, sorta:

My wild wife, Shar, is perhaps the most interesting person you've ever heard of. She's not 'party animal' wild, but she does love nature, being in the woods, and danger. This book charts my love for her through a dizzying array of adventures, misadventures, quests, plots, hijinks, and ridiculous situations. Throughout, Shar delivers a steady stream

of action-packed encounters with wildlife, hilarious stories, and heartfelt love for me, her husband. Learn about miniature cows, farm living, pawpaws, and of course – snakes! As you read about this woman, I'm sure that you too will fall in love with her and her wonderful stories.

About the Author Steve Jewell is an engineer, presenter, and author of dozens of articles – none of which involve his wife. He's a proud father and adequate husband. This is the first book that he's written for the general public – God help them. He enjoys sports, being with his kids, and watching his amazing wife.
