Each image has a beautiful young woman set in various exotic settings that are part-fairytale, part mandala or part zentangle. I was getting a little bored seeing the endless mandalas and paisley patterns in adult coloring books...and my brain just perks up looking at this book. The woman is the same throughout the book...she reminds me of a teenage Frida Kahlo, albeit with tidier eyebrows! Perhaps this book was inspired by Frida's self portraits painted in natural settings. The "Frida" in this coloring book is a less prominent feature than the artist Frida is in her portraits, so roughly 80% of each page has beautiful swirling design elements framing the woman, who appears on different parts of the page in a greater variety of poses than Frida ever did! Also, the line drawings are an ideal width for coloring with your average felt tip. My young daughter is using her non-

specialist felt pens (not micro-tipped) and is easily able to color within the lines. The back of each page has been considerably left blank, so no bleedthrough issues. In short, a great coloring book! 1 of 1 people found the following review helpful. Love the diversity of the whimsical designs! By teacher1 Beautiful, whimsical designs. I like that the pages have a nice balance of fantasy elements with zentangle type backgrounds. I look forward to seeing how the pages turn out when colored! I love that the pages have enough detail to be challenging but not so many that they seem overwhelming. I get easily burned out on pages that literally take hours to complete. These pages definitely seem more reasonable. 1 of 1 people found the following review helpful. I absolutely love this magical coloring book By Terri Sassone I absolutely love this magical coloring book. The pictures are beautiful and you have a wide variety of scenes to color. I am super excited to see how these illustrations come to life. What I love about the pictures in the book is you can color with extreme detail or you can color them more sparsely for a completely different look. I will spend hours enjoying this wonderful coloring book.
