**Terry Pratchett : Nanny Ogg's Cookbook: A Useful and Improving Almanack of Information Including Astonishing Recipes from Terry Pratchett's Discworld (Discworld Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Nanny Ogg's Cookbook: A Useful and Improving Almanack of Information Including Astonishing Recipes from Terry Pratchett's Discworld (Discworld Series):

2 of 2 people found the following review helpful. A great DiscWorld additionBy T.AldenI love Terry Pratchett's writing and finding odd cook books so this book was a must have. It has the wonderfully strange and twisted humor

you would expect from a DiscWorld novel with great recipes directly connected to or named after different characters from the DiscWorld series. The illustrations from Paul Kibby add a wonderful element and the chapter on food etiquette with the many creatures and characters of Disc World is hilarious. Sprinkled throughout is Nanny Ogg's humor and off color jokes, oh so befitting of one of Discworld's most famous witches. I have tried making several of the recipes and not only did no one die after eating, many asked for seconds! Two fan favs from my household is Sergeant Angua's Vegetable Stew and Wow-wow sauce. 2 of 2 people found the following review helpful. Get the hardcover. Awesome book. By Josephine I should've gotten the hardcover, because the cover art would've looked incredible with the hard binding. If you want a glimpse of what some of your favorite (and not-so-favorite) Discworld characters love to eat most, this is the book for you. The recipes are accompanied by gorgeous illustrations, another reason I should've splurged on the hardcover. The soft-cover's pages don't have the pretty, pale ivory color of the hardcover's pages; it looks rather yellowy gray. 0 of 0 people found the following review helpful. a real cat shaker, classic Pratchett By J. Hall I found Disc World some 5 or 6 yrs previously and have read everything I can find. Some of the earlier books were a bit uneven until Sir Terry hit his stride, then each new one was eagerly anticipated, and now the tragic dx of early onset Alzheimer's will end his life and with it, the Disc-verse. This book is ten yrs or more old but just recently discovered by me. I ordered 2 copies for gifts fr but was sent notice they were unavailable so I ordered one from UK and the 2nd one after the holidays for my son/myself when US had stock again. My son my nephew enjoyed Nanny Ogg very much. I started reading it myself and giggled so hard I pestered the cat to the point he had to leave my lap in a huff. Bad news is I accidentally left it at my daughter's hair salon and have to wait until she comes home for me to finish it. In the meanwhile I have The Compleat Ankh-Morpork at hand and can order Turtle Recall if I need a fix. Disc World fans will love this - if you are not yet but are a Brit humor lover, become a Pratchettite. No regrets, I promise.

They say that the way to a man's heart is through his stomach which just goes to show they're as confused about anatomy as they gen'rally are about everything else, unless they're talking about instructions on how to stab him, in which case a better way is up and under the ribcage. Anyway, we do not live in a perfect world and it is foresighted and useful for a young woman to become proficient in those arts which will keep a weak-willed man from straying. Learning to cook is also useful.

From the Publisher They say that the way to a mans heart is through his stomach, which just goes to show theyre as confused about anatomy as they are about everything else, unless theyre talking about instructions on how to stab him, in which case a better way is up and under the ribcage. Anyway, we do not live in a perfect world, and it is foresighted and useful for a young woman to become proficient in those arts which will keep a weakwilled man from straying. Learning to cook is also useful. Now Nanny Ogg, one of Discworlds favorite witches, is handing down some of her tasty and, above all, interesting recipes. In addition to the delights of Lord Downeys Mint Humbugs and Spicy Spotted Dick, Mrs. Ogg imparts her thoughts on life, death, and etiquette (If you go to other peoples funerals, theyll be sure to come to yours), all in a refined style that should not offend anyone. Well, not much. From the Inside Flap Nanny Ogg, one of Discworld's most famous witches, has decided to pass on some of her huge collection of tasty and exceedingly interesting recipes. In addition to the delights of the Strawberry Wobbler and Nobby's Mum's Distressed Pudding, Mrs Ogg imparts her thoughts on life, death, etiquette, courtship, children and weddings, all in a refined style that should not offend the most delicate of sensibilities. Well, not much... Most of the recipes have been tried out on people who are still alive. Mrs Ogg gratefully acknowledges the assistance of Mr. Terry Pratchett, Mr. Stephen Briggs, Mlle Tina Hannan and Master Paul Kidby. About the Author Terry Pratchett is the author of the best-selling, internationally-renowned Discworld series. He was awarded an OBE in 1998 and his first Discworld novel for children, The Amazing Maurice and His Educated Rodents, was awarded the 2001 Carnegie Medal.
