Jonathan Ian Mathers : Neurotically Yours : Big Book of Doodles 3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Neurotically Yours : Big Book of Doodles 3:

Can't buy an original sketch when they're auctioned? Missed your favorite sketch ever? No fear! All those sketches and more have been collected in this nifty volume of finished sketches drawings. You too can now say you have "fine art" books. (Not really though)Recommended for mature readers due to some graphic stuff.
