**Kira Cul'tofay : Never Wake** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Never Wake:

1 of 1 people found the following review helpful. Great short stories and art By David Maguire I'll start off by saying I am not a coloring book fan... I got this because I have read and enjoyed all the Meridian Wanderings series books. For me, it is a short story picture book. Having said that, the art is great, well done and fun. It added an enjoyable element to the great stories. As someone who has read the entire series, it was great to get backstory information to several important characters from the books. However, I think all the stories could stand on their own as an introduction to the Meridian Wanderings world. I don't know if I could pick a favorite, because they are all great. The introductory story is the longest, told from the point of view of the reigning queen of the first book (Queen of the World). It adds great depth and changes the light I now see her character in. Several major and secondary characters appear in this one. Next up is a personal favorite, Fosby the Sasquatch (Xsati) and his human friends. This story is the most lighthearted of the

bunch... a slice of stoner life with a perilous twist. La'mera appears next, although the main story is about two sisters on Earth... a sad and wistful story about how magical misunderstandings can affect one's life. The last story, while short, is an intriguing and ominous teaser. Very "high concept", I can't say much without spoiling, other than I can't wait to read the resulting story-line! There is also a section at the end where the author and artist answer some questions about their artistic process and this project. It was informative and fun to read. 0 of 0 people found the following review helpful. Four Stars By aaron boyes An entertaining collection of short stories involving both new and past characters in the Meridian Wanderings universe

Want your Sci-Fi books with a new twist? On occasion, the dimensional barriers between realities weaken. In those instances, you might catch a glimpse of different places and times. Welcome to Never Wake. Never Wake is four short stories from the Meridian Wanderings universe. Wonderfully penned prequel fables, Never Wake is the perfect place for Fantasy Sci-Fi book fans to jump on, or for long-time Meridian Wanderings readers to learn of tales from long ago. Never Wake is also a coloring book for grown-ups. Each page of art mirrors the preceding words, while your imagination adds color to these stories. Written by series creator Kira Cul'tofay, Never Wake combines the exuberance of youthful fun with a more adult flair. These grown up fables of love, loss, fear and laughs are brought to life for those who remember what childhood bedtime stories and coloring books should be like. Read, color review the shorts stories of Never Wake on Amazon and tell your friends about the Meridian Wanderings Sci-Fi book series. Thank you to all of our loyal readers and fans!

About the Author Sci-Fi book author, Kira Cul'tofay started working for the sci-fi magazine Knightmares in the early 90s', mostly drawing covers and interior art but also writing a monthly comic strip. For many years she wanted to write a fantasy or sci-fi novel. She grew up loving to read but fantasy was never her interest. Cul'tofay's preference was for first-hand accounts of aliens, crypto-zoological creatures, ghosts, hauntings, curses and UFO's. She wanted to know everything she could about scientific discoveries and was fascinated with fables, fairytales and mythology. The draw here was the correlation between things that were written and spoken of in fables and religion and the fine line between what might be true. "This was where my imagination took flight. I didn't care what other people or writers thought of these topics since I had my own ideas". For almost 15 years the ideas and characters traveled around her head. They commingled with current events and the storylines continued to grow. In the summer of 2005 Cul'tofay began writing Queen of the World. This would be the first of a four-book story arc called, Royal Seasons, that encompassed each branch of royalty as well as a love of the seasons. Her fondness of characters, threads and interconnectedness shaped this new world. She envisioned a series of novels that would be made up of multi-book storylines as well as stand-alone tales. Each story would be tied together by lines that would only be visible to readers of the entire series. Much like life, the novels can continue even if certain figures didn't survive or if a reader had only picked up one book. Expect to see new titles from Cul'tofay that will keep the meridian wanderings world moving forward.
