John Gisby : New Zealand with a Hobbit Botherer before purchasing it in order to gauge whether or not it would be worth my time, and all praised New Zealand with a Hobbit Botherer:

2 of 2 people found the following review helpful. Good fun
By Heather Kemp
A light-hearted, fun commentary on life with a hobbit botherer on tour in New Zealand and earnestly seeking out all things connected with Lord of the Rings. Even if you don't care for hobbits or elves there is enough detail of places visited and some of the quirky side of kiwis to keep you entertained in this book.
1 of 2 people found the following review helpful. Good New Zealand info, terrible Hobbit or Tolkien info
By Customer
Hoping this was funnier and more informative of movie sets in New Zealand.

Pretty slow moving and not many chuckles. I'm about a 1/3 of the way through and going slower all the time because it is not shaping up to what i hoped or getting any more enjoyable as i trudge along. 1 of 1 people found the following review helpful. New Zealand... A very different type of book , one telling about their tours of New Zealand!By AngelaI chose to give this book four stars for a very nice book about sights to see and not to see there! I did not like the fact that the mobi file had left off part of their sentences along the way quite often! I would suggest one get the ePub file instead of the mobi file as it at least finished the sentences each time where the mobi file didnot do it! As far as the PDF files I cannot say what that is like as I only downloaded both the ePub for my NOOKdevice and the mobi file for my I Pad,see? As I find myself needing to use my NOOK device to carry with me so that I can read books from authors while I have to wait and wait for my transportation to and from my volunteer job twice a week because of this mode of transportation has a tendency of making their riders to wait and wait for them to be picked up,see? And the Nook is so much lighter and less bulky than my I Pad is, so I use the I Pad only at home usually for reading and doing my reviews,play games,etc.! I hope you, Annette will have a better and different proofreader editor go over your mobi file before you make any new files for new readers to be for your sake money wise,ok? Otherwise it was interest ting also wish to suggest that the reader have more time to read this book beforehaving to do reviews on this book,ok? Please ? I recommend this book for those who like a long drawn out tour of New Zealand and who can take their sweet time reading and so be able to really enjoy this book! I received this book free and in exchange for doing a review for the author! A thanks author for allowing me to read and do the review for you and future readers to be and for you! By Angela

What should you do if your spouse becomes addicted to the Lord of the Rings movies and swoons at the very mention of Orlando Bloom's name? (Thud. Quick, fetch the smelling salts.) How about taking the advice of a strange apparition that reveals itself in a dream? An apparition that looks remarkably like the director of the movies, Peter Jackson, but not quite remarkably enough to prompt legal action. An apparition that recommends touring New Zealand in an effort to prove that its sheep pastures aren't really filled by frolicking Hobbits. Just sheep and the occasional zorbing local. This is the hilarious tale of such a tour, featuring snow capped mountains and turquoise lakes, flightless birds and flying cattle, bungy jumping grannies and the carrot mafia, strange yellow eyes peering up from a road map and hotel receptionists always desperate to know win you are living.

From the PublisherPraise for the book: "I laughed so hard I could barely breathe!" - Tami Brady, TCM s. "You'll also learn a lot about a colorful land and its rich history, because in between nuggets of humor John Gisby provides plenty of solid facts about New Zealand. He's not only an entertaining writer, but an informative one, too." - Nina M. Osier, author of Rough Rider. "Whether you are a Tolkien fan or not, you will love this romp through Kiwi-land in search of Hobbit lore. Like it's inspiration, Hobbit Botherer has a colorful cast of characters, the entire land of New Zealand for its backdrop, poetic language (or at least great puns) fast moving adventure and, something Lord of the Rings did not have, a genuine Hobbit Botherer." - Kathleen Walls, author of Kudzu, Last Step, Finding Florida's Phantoms and editor of travel magazine, American Roads.
