Good nighttime reading By Cheryl Kollek My brother told me about this book, and needed a laugh to help me sleep at night, and this did the trick 0 of 0 people found the following review helpful. great quality book By CustomerGag gift for adult friends for christmas. great quality book! 0 of 5 people found the following review helpful. Cheap and sleazy. Goebbles would be proud. By J MAINE Another hit-piece. Yes, Newt proved to be a scumbag when he stood with Nancy Pelosi. This book is simply a mockery of conservative ideas by taking them to the extreme. I'm sure the authors have no problem with government spying, giving guns to Mexican drug lords, selling American uranium rights, giving Iran Nukes, and legally mandated records being "accidentally" destroyed along with -- what a coincidence! -- all 5 legally-required back-ups.

This collection of politically INcorrect fairy tales includes "Snow White the Seven (pessimistically dwarfed) Senators, "Hillary the Snow Queen," and others.
