Stephen Hayes teach you spatula fighting? Exactly. Why buy martial arts manuals without burger recipes? It's just a question, it's not like you'd die if you answer wrong.0 of 0 people found the following review helpful. HiariousBy Anna MunroeIt is hilarious to begin with, and it keeps getting funnier as it goes along. From basic combat training to cleaning the toilets, you will have a lot of laughs reading the troubles being in the ninja delivery service. This is a must-have for anyone who is a fan of ninjas and good old fashion ninja humor.0 of 0 people found the following review helpful. GREAT HONOR TO THE NINJA ANCESTORSBy AvengerEmmaPeelThis book is awesome. It has been great to include in gaming as both prop and story addin. I hope the 2nd Ed Ninja Burger books come back into print as well so I can get more people into playing.
