Ben Dunn, Herb Mallette : Ninja High School Pocket Manga #7 (No. 7) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ninja High School Pocket Manga #7 (No. 7):

The full-tilt insanity continues! First, a monster computer from the 520th century, bent on robotic rule, has been shot

back into present-day Quagmire, and the Stellar Losers have to team up with the Quagmire gang to stop it! Then, for a change, Jeremy gets some competition for Ichi when a naive yet powerful island boy comes to answer her letter in a bottle. With a Zardon attack imminent, the Interstellar Conglomerate fears for Asrial's safety, so they order her to leave Earth and come home!
