tribulations of a Dad Man0 of 0 people found the following review helpful. Five StarsBy Barbara B. There are parts that make you laugh out loud ... so true!

Notes from a Dadman is a real representation of what its like being a Dad to two wonderful, adrenalin fuelled maniacs. It wont give you any useful tips or advice, and by the end of it you wont be any more prepared for life with children. Its not educational in any way in fact. This book provides a series of anecdotes and stories from my own experiences. This is from a Dad who now ages 5 times quicker than the average human. Youll also find, like my life, the book isnt in any particular order. The book wasnt written in one sitting. Its a random accumulation of months of ramblings written in the 40 seconds of spare time I enjoy a week. If this book doesnt teach you anything (which it wont it) I hope it makes you smile.
