Mike Dooley, Gina Tyquiengco : Notes from the Universe Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Notes from the Universe Coloring Book:

14 of 14 people found the following review helpful. Double-sided pagesBy RoseI like the messages and the drawings; I even like the fact that the pages can be torn out. However, the only downside is the pages are double-sided.12 of 13 people found the following review helpful. Smudged, duplicated ink on back to back pages makes for un-fun coloringBy GeekjelloThe designs in this book are fairly simple when compared with other adult-style coloring books on the market, but it does make them quite quick to color. The quick coloring style of these pictures is nice for a day when you need an affirmation and some relaxation. The paper quality and image quality on this book is quite good, very happy there. Where this book falls short is the double sided printing and poor ink quality. There were quite a few pictures right in the middle of the book where the ink from one page was transferred on to the opposing page, causing the images to be distorted in some cases or just sort of messy. I included a couple pictures of this problem with this

review. At the current price (\$11), I feel like the printing quality should be better than this. 7 of 7 people found the following review helpful. Meditate while you color!
