Driveway Moments a hit ! By L J S Bought for my Brother who travels a lot in his car for work. He likes all of those stories. 2 of 3 people found the following review helpful. Really good, but not spectacular. By B. Jones I bought this as a Father's Day present for my husband (for his first Father's Day as a father). We listened to it together, and we both thought it was pretty good, but nowhere near as great as an episode of This American Life or anything along those lines. Although some of the stories are very charming-- and a couple are touching, well-told tear-jerkers-- there are also a few stories and anecdotes that are mediocre at best. I think this collection is definitely worth listening to, especially for the few really beautiful stories, but if I had it to do over again I would have maybe given this to my husband as a just-because-present instead of making it a Father's Day present. Just to reiterate, we liked this collection and I don't regret my purchase whatsoever, but I'm giving it 4 stars instead of 5 b/c the stories are so varied in quality.
