Don't miss out on a chance to read such a witty, informative, educational and memorable journey with insight only a dedicated nurse could share with us.

Nurses always have something to say about everything, don't we? We teach, we listen, we wake up a lot of doctors and we clean up things only a mother would think of touching. Hopefully in the process, we have touched a lot of hearts. Here are some favorite nursing wisdoms from Audrey and colleagues: If you sleep longer than an hour in the ICU, you're not getting your money's worth. A warmed blanket can put a patient to sleep faster than a sleeping pill. Never, never, make the nurse angry (and be on call that night). This is the perfect companion for nurses, nursing and medical students and all those who share in a nurses life. Take a peek inside. There's more. Believe me, there's more. Audrey Friedman RN, CLNC has been a nurse for over twenty three years. She currently works in Critical Care and Legal Nurse Consulting, nurse mentoring and community speaking.
