Especially people who feel that they must preach to others about their personal beliefs. However, if you want a good laugh and a few creative ideas on how to keep certain "religious folks" away, you need to read this.Before

reading, please keep in mind that the term "Jesus Freak" does not mean Christians. It means those over zealous bible mongers who practically FORCE religion down your throat. True Christians are not like that! Highly recommended!! 3 of 4 people found the following review helpful. Fighting back against door-to-door pests By Eric Oppen The Fish is no one to trifle with, and neither are her friends. So when offensively-overpious Jesus freaks come pounding on their doors, particularly when they've been told already they aren't welcome, you can expect chaos to erupt. Using humor, mind-screwing, and (sometimes) special effects, Leslie tells tales of how she, and friends of hers, sent these nuisances to the right-about. A good read for anybody who's tired of this sort of harassment, particularly those with minority religious beliefs who just want to be let alone. 7 of 9 people found the following review helpful. Hysterically funny! By Eleanore M. Isn't it annoying when the doorbell rings and you're right in the middle of something? And then what do you see when you open the door but "religion salespeople". There are dozens of great stories in this book about how people have chased away these annoying people. Each story is funnier than the last. My favorite story was the one about the big snake. I couldn't stop laughing. It gave me a lot of good ideas to try out the next time my doorbell rings and it's "one of them".

Real-life stories of how ordinary people have sent pesky religion-pushers running, just by using wit, humor, and a bit of luck.
