You might always remember when your 3yo son announces in Church that the Usher "Stole his money!" but he will not. So it is a fun way to just remember the little things.. I bought 2 (one for each kid) and write all the little crazy things in there! They will love it when they are older.

Your quotable kid. Kids really do say the darnedest things. Some bons mots or cute phrases spoken by tots are remembered and passed on, to the delight of relatives and friends -- and to the children themselves when they are older. Sadly, most of these surprise utterances are quickly forgotten, lost in the daily domestic chaos. Even worse, over

time they may be attributed to a sibling. When a daycare-age daughter says to a playmate, "I love you, Joshua, and I'm wearing big-girl underpants," it's worth writing that down in a book, right? How about, "I want to be a veterinarian or fight evil aliens"? This keepsake album, with its lively and colorful design, is just the place to record such hilarious comments, unexpected turns of phrase, bafflingly insightful remarks and tender admissions so that they remain part of family history forever. Oh, What You Said! becomes a great keepsake for both parent and child, and a wonderful gift for any family with young children.
