Dr. Seuss : On Beyond Zebra! (Classic Seuss) before purchasing it in order to gage whether or not it would be worth my time, and all praised On Beyond Zebra! (Classic Seuss):

2 of 2 people found the following review helpful. ClassicBy unpreparedtodieClassic. I used to reject the notion that an alphabet letter was spelled out using our regular alphabet. But reading it later, as an adult, these seems to matter far less - and the genius of Seuss is only more appreciated. After all you can spell "x" as "ecks." You can spell "Q" as "kew." So whats wrong with spelling out these letters?That language opens new views of the world is a great message. That there is always more to know is a great one too.0 of 0 people found the following review helpful. Least Favorite Dr. SeussBy KNSI love Dr. Seuss but this book is terribly hard to read. I am going to loose it before my kids request

Easily the most mind-blowing creative and ageless work of the Good Dr. SeussBy Chip in San DiegoThis is mind-blowingly imaginative and inspires readers of all ages to create their own new alphabets. The hilarious patter is ageless. I loved it as a 5-year-old when it came out in 1955, but I still give it as gifts that make friends and family laugh out loud every time.

If you think the alphabet stops with Z, you are wrong. So wrong. Leave it to Conrad Cornelius o'Donald o'Dell (with a little help from Dr. Seuss) to create an entirely new alphabet beginning with Z! This rhyming picture book introduces twenty new letters and the creatures that one can spell with them. Discover (and spell) such wonderfully Seussian creations as the Yuzz-a-ma-Tuzz and the High Gargel-orum. Readers young and old will be giggling from beginning to end . . . or should we say, from Yuzz to Hi!

.com A thoroughly Seussian tweak of the alphabet-book tradition, *On Beyond Zebra* is about all the letters that most people ignore--the ones that come after Z. Our hero (instantly recognizable to most Seuss fans as the boy who captured Thing One and Thing Two in *The Cat in the Hat*) takes his young friend, Conrad Cornelius O'Donald O'Dell, on a guided tour of all the weird creatures that begin with letters such as Yuzz, Wumbus, and Glikk. "And Nuh is the letter I use to spell Nutches, Who live in small caves, known as Nitches, for hutches." The message is pretty simple: the alphabet pins down boring old "reality," but if you explore further afield there are more interesting worlds to discover. "So, on beyond Z! It's high time you were shown, / That you really don't know all there is to be known." Explorers in need of guidance will even find a table of useful new letters (a beyondabet? a WumbaGlikk?) in the back. (Ages 4 to 8) --Richard Farr "Children will be intrigued and delighted with the nonsensical alphabet that begins after Z."--
