**Robin Page : One Man Went to Mow** before purchasing it in order to gage whether or not it would be worth my time, and all praised One Man Went to Mow:

A new collection from Britain's leading campaigner for conservation of the countryside, author of Carry on Farming. Following the success of his previous book, Carry On Farming, this new collection is sure to appeal to Robin Page's many country readers. One Man Went to Mow introduces Robin's foxhound puppy, Corset, already a great favourite at

country shows. Fresh from his triumph with his self published work, *The Hunting Gene*, Robin Page confirms in this new book his standing as the most passionate lobbyist for the countryside and country traditions writing in Britain today. Whether he is campaigning for sustainable farming practice, fighting against political mismanagement of the country, or pleading the case of threatened wildlife, Robin Page is always honest, provocative and stimulating. His large following will find plenty to delight them here.
