This goes on my bookshelf, right next to Cookie McClung "Horsepeople" and Thelwell pony books for when I need a quick pick-me-up. If you are a horse person, do yourself a favor and get one of these for your bookshelf - it will keep you entertained during the inevitable layups stemming from, what else, the sport of deranged.0 of 0 people found the following review helpful. What a fun and entertaining book.By Hope AndersonThis was such an interesting story. Kept me entertained through the entire book. So much knowledge about such a wonderful animal, the horse. Such good reading for all.0 of 0 people found the following review helpful. Horse lover!By Kathy GoforthCute book! If you a horse owner and lover you will appreciate this cute books look at the horse world.

This comic compilation of aphorisms gently roasts those whose existence revolves around their horses. Through double entendres and colorful cartoons inspired by contributions from fellow horse-lovers, the collection captures the mindset and idiosyncrasies of some humans' complete and total devotion to their equine friends. Whether the subject is whips, chains, and leather or the finer points of horse nutrition, the book artfully conveys the habits and quirks that make horsing around hilarious.
