Willem : Outback Cook before purchasing it in order to gauge whether or not it would be worth my time, and all praised Outback Cook:

Stories of a Safari Cook in Australia Tourists can be funny, strange and eccentric. The local people in the Outback of Australia are different too, with their laconic attitude and slower pace than city slickers. What better way to observe

them than traveling as tour guide, cook and driver on outback safaris. For many years the author did just that. Here are his yarns of the humorous sides of his travels. It is not a travel guide or a cookbook, just observations of people and situations in the Big Country.

About the Author Willem, who now lives in the USA, lived for 20 years in Australia. Half that time he worked for tour companies traveling the Outback, showing tourists the wide open spaces and the wonders of nature. A story teller who still longs back to the bush finally wrote his first bundle of stories.
