Herbie Brennan : The Spy's Handbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Spy's Handbook:

0 of 0 people found the following review helpful. Five StarsBy Mincraft voterThis book helped me find people who tried to bully me!!!!!!!!!!

Whether you're just a bit nosy, or you want to launch a full-scale investigation of your neighbors, this indispensable handbook will teach you everything you need to know. There are practical sections on codes, ciphers, invisible ink and signalling, as well as guidance on drops and safe houses. This book teaches you how to spot when somebody is lying, and how to lie effectively yourself. There are sections on successful disguise and how to structure a spy ring, including psychological recruitment strategies, psychic surveillance, and spotting moles. And there's technical advice too about constructing bugging devices and setting traps. Herbie Brennan interlaces the facts with anecdotes about real-life spies, making this unique handbook an entertaining armchair read as well as an essential tool for any budding (or currently serving) MI6 operative.

About the AuthorHerbie Brennan began a journalistic career at age eighteen and at twenty-four became the youngest newspaper editor in his native Ireland. He is now a full-time writer of fact and fiction for both adults and children, with several international bestsellers to his name. Combined sales of his books have passed seven million copies, and his work has appeared in more than fifty countries. He lives with his wife and eight cats in an old rectory in Ireland.
