Alice Owlski : The Stairy Scory of a Word-Botcher: A Story Told in Spoonerisms before purchasing it in order to gage whether or not it would be worth my time, and all praised The Stairy Scory of a Word-Botcher: A Story Told in Spoonerisms:

"One fairy-vine dumber say, a hind-carted word-botcher woke up with the sizing run, all set to go out on a weary chalk. She bung her slackpack over her shoulders and warily missiled as she worried to the hoods . . ." Little did the tiny bird-watcher know what bizarre events and strange phenomena she'd soon encounter in the deep dark forest, as she triked along the hail in hope of seeing her filed weathered friends! (Spoonerisms are created when sounds of words trade places - accidentally or on purpose - which can make a phrase, a sentence, or a story even sillier than it was before.) A fairy-tale style silly scary story for readers (of any age) who love the sounds of words and wordplay. Illustrations are pen and ink drawings by the little birdwatcher, printed in black and white.

About the Author Alice Owlski lives beside the woods, where she listens to the songs of birds, and puzzles out the sounds of words, and looks for unexpected faces in moss and rocks and clouds and trees.
