Hoff makes a good point in joining the Taoist teachings to (Tao Master) Pooh Bear. Even though I have yet to read or see any of the Pooh Bear stories, I found this book rather entertaining. At times I even caught myself laughing out loud once or twice. There were others where I would lose myself for a few seconds in the illustrations. Notwithstanding, there were times when Pooh's absent-mindedness did get on my nerves (though not for long). This is a great primer for anyone looking into the Taoist teachings. 0 of 0 people found the following review helpful. All Time Favorite. By mauriturlock One of my all time favorite books. I read it for the first time when I was 18, and it had an impact. Bought this one as a gift for a friend. He is enjoying it.
