By J. Szyarto
My kids loved this book. First it is fat. They like looking like they are good readers. They love the stories and their vocabulary is increasing. The kids are even checking out the other Franny K. Stein books.
0 of 0 people found the following review helpful. My 9 year old loves it!
By R. Miller
Great book full of imagination. That is what keeps the attention of my 9 year old daughter. My child normally struggles to keep interest in most books but this one has been no sweat.

From creating monsters to invisibility formulas to time travel, there is no obstacle that Franny can't conquer. Now you can catch up on her early experiments and see what it takes to become a mad scientist!

About the Author
Jim Benton is a writer and cartoonist whose unique brand of humor has been seen on toys, television, T-shirts, greeting cards, and even underwear. Franny K. Stein is the first character he's created especially for young children. A husband and father of two, he lives in Michigan, where he works in a studio that really and truly does have creepy stuff in it. Visit him at www.frannykstein.com.
