**Brett R. Kuhn Ph.D., Joe Borgenicht D.A.D. : The Toddler Owner's Manual: Operating Instructions, Troubleshooting Tips, and Advice on System Maintenance** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Toddler Owner's Manual: Operating Instructions, Troubleshooting Tips, and Advice on System Maintenance:

1 of 1 people found the following review helpful. You need to read this one By R. Jung The only toddler book you need to read. I also own the first book, Baby Owner's Manual. I have not come across another book to compare with the

helpful, useful, simple information it provides. I get a little tired of reading the alternating his/hers in the book, I think if the authors had simply put "your baby/the baby" etc it would have been a lot better read. Great! Great gift too! 1 of 1 people found the following review helpful. Perfect for new Dads! By Amanda I bought "The Baby Owner's Manual" for my husband while I was pregnant and he read the entire thing cover to cover more than once. Our baby is only 4 months old so he still refers to it for help a lot. Since he loved it so much, I bought this book for him for Christmas so he could get ready for the coming years and he immediately read the whole thing. He doesn't have much experience with kids so it's great for him to have something to read, and something that's written in a way he finds entertaining. It's hilarious when it talks about your "model" and explains differences between models, but even with the comedy thrown in, the things the book teaches are very helpful. I would definitely recommend this for dads, and for any new parent because it's a great tool and teaches a lot of things that aren't always talked about in other books. 2 of 2 people found the following review helpful. Amusing for a few minutes - gets old quickly By Jz This is more of a book that seems more interesting in theory than it is in practice. The idea compelled me to buy it, but after reading a little while, it started to become ridiculous. It does offer some helpful tips, but nothing that can't be found at any parenting website or in any other decent parenting book. I guess I would have to say it is like when a kid says something funny that makes you laugh. They then will say the same funny thing 1,000 times expecting the same laugh. It wears thin after a while.

**At Last! A Beginner's Guide to Toddler Technology** Just when you've mastered your infant's maintenance routine, he begins to malfunction, refusing fuel, crying inexplicably, and resisting your attempts to clothe him. Your infant has upgraded to a toddler! But how can you master your toddler's changing technology? Through step-by-step instructions and helpful schematic diagrams, *The Toddler Owner's Manual* explores hundreds of frequently asked questions: How should I react when my toddler throws a tantrum? How do I train my toddler for self-waste disposal? Whatever your concerns, you'll find the answers here—courtesy of pediatric psychologist Dr. Brett R. Kuhn and co-author Joe Borgenicht. Together, they provide plenty of useful advice for anyone who wants to learn the basics of toddler care.

**About the Author** Brett R. Kuhn, Ph.D., is an associate professor of Pediatrics and director of the Pediatric Sleep Clinic at the University of Nebraska Medical Center. He has been published in *The American Family Physician*, *Journal of Psychosomatic Research*, *Child Family Behavior Therapy*, *Psychological Bulletin*, and *Journal of Pediatric Psychology*, and has been featured as an expert in *Parents* and *Parenting* magazines. Brett and his wife, Tami, have three children, all of whom successfully upgraded through the toddler years. Joe Borgenicht, D.A.D., is a writer, producer, and current toddler owner. He is the co-author of *The Baby Owner's Manual*, *The Action Hero's Handbook*, *The Action Heroine's Handbook*, *Undercover Golf*, and *The Reality TV Handbook*. Paul Kepple and Jude Buffum are better known as the Philadelphia-based studio *Headcase Design*. Their work has been featured in many design and illustration publications, such as *American Illustration*, *Communication Arts*, and *Print*. Paul worked at *Running Press Book Publishers* for several years before opening *Headcase* in 1998. Both graduated from the *Tyler School of Art*, where they now teach.
