Craig Brown : The Tony Years before purchasing it in order to gage whether or not it would be worth my time, and all praised The Tony Years:

An awful lot has happened since that bright, fateful May morning in 1997 when New Labor swept to power. Things,

we were told, could only get better. Instead, things took a turn for the worse. To console Tony Blair as he embarks on his long, grinning journey into oblivion, Craig Brown has packed a special time-capsule of Britain during the Tony Years: from Cool Britannia to ASBOs and from Posh and Becks to Charles and Camilla, the nation's funniest satirist makes sense—and nonsense—of it all.

“Nobody does prose parody and media satire better.”—Independent
From the Hardcover edition.
About the Author
Craig Brown is a columnist for the Daily Telegraph and a book reviewer for the Mail on Sunday. His previous books include *1966 and All That*, *The Little Book of Chaos*, *The Marsh Marlowe Letters*, and *This is Craig Brown*.
