BelandWhen I saw this book I was very excited, because one of my favorite childhood memories is of my father reading this book to my brother and I again and again. Each time he read it to us we laughed as if we had never heard it before, so when I got the opportunity to get a copy of my own and maybe share some of those good times with my step children, I jumped at the chance. unfortunately while reading the book I noticed that pages 79 through 102 are missing. I will make every effort not to do business with this seller again.0 of 0 people found the following review helpful. What were they thinking?By great gramma 1Very funny list of goofy laws still on the books of some states. Makes you wonder why such laws became necessary.0 of 0 people found the following review helpful. Seller did what was needed to ensure 100% satisfactionBy JulieGreat book that we purchased for our nephew.. working with this seller was great!
