Brian Griffin : The Trustafarian Handbook: A Field Guide to the Neo-Hippie Lifestyle - Funded by Mom and Dad before purchasing it in order to gage whether or not it would be worth my time, and all praised The Trustafarian Handbook: A Field Guide to the Neo-Hippie Lifestyle - Funded by Mom and Dad:

0 of 0 people found the following review helpful. A very funny satire- the book is a great joke By Simcha A very funny read. Obviously Funny satire. I would think of it as a funny joke to give to a rich relative or friend. These days it seems, the people with the old money have no concept of what money really is, they just pretend to, and are so bad at it, that

in order to make up for it, they try to be as cheap as they can. Obviously they fail at that so they try to be even cheaper. It doesn't work very well! The philosophy of this book is the opposite of that and is important to understand the difference. The trustafarian handbook is a great guide into the lives of this interesting class of people, that I in some ways register myself to be in. I think this book is very funny satire, so have fun reading it and don't forget to laugh. 0 of 0 people found the following review helpful. Funny By Will Szal This book is intended as a satire, but is actually a useful tool for people of financial wealth to look confront their fears and face the stereotypes applied to them. 1 of 1 people found the following review helpful. Interesting insights that were funny and yet accurate. By Athenasculptress Humorous.....and in some ways embarrassing. A bit too much emphasis on Rastafarian mimics.

For years, a moldy slice of the upper crust has been slumming it in disguise. Sitting on stoops, smoking up, and trying to blend in with the common broke folk by wearing worn-out jeans (though really stylishly distressed), drinking PBR (even though the family owns a vineyard), and not paying rent (that's what parents are for). Meet the Trustafarian counter-counter-culture. These young men and women have gone from the country club to the community pool--by choice, to look cool. They've adopted the free-spiritedness and outward appearance of the hippie, Rasta, and Bohemian sets . . . while retaining a few minor perks from their privileged upbringing, the 7-series, the summer home, and the money to burn. Inside, you will learn everything you ever wanted to know about the Trustafarian culture--from information on their formative years to their fashion choices to their fornication rituals. Get the scoop on Impostafarians, Brohemians, Fauxlanthropists, and their kept, but unkempt brethren. And next time, you'll be in the know rather than scratching your head when you see that homeless-looking guy hop into his brand-new Audi.

About the Author Brian Griffin grew up in the college-mottled heart of Western Massachusetts, where Trustafarians roam freely. A graduate of NYU, Griffin has lived in Brooklyn, worked in the East Village, and hung out in SoHo, giving him plenty of access to assess the counter-counter-cultures inner workings. He currently lives and earns his own money in New York City.
