David Chadwick : The Twelve Leadership Principles of Dean Smith before purchasing it in order to gage whether or not it would be worth my time, and all praised The Twelve Leadership Principles of Dean Smith:

This book was written by David Chadwick, one of his former players who is currently the Pastor of a large Church. He reflects upon his university

experience with Coach Smith as well as the lifelong impact that experience has brought him. He adds the reflections and residual affection of many other UNC basketball alumni, some now quite famous like Michael Jordan, to emphasize how these particular 12 principles were operationalized through this man and this sport. The 12 principles are truly worth examining and applying in a universal way. I think it is clear that Dean Smith paid great tribute with the expression of his talents and skills, which contributed beyond an athletic program. The opportunity is presented to expand these into a formulation of leadership objectives that blend healthy values, long term vision and deep personal meaning. If you are not a basketball fan then the text could be somewhat tedious when wading through the illustrations. That notwithstanding, it is still relatively easy to enjoy the value of these principles and compare them with how you may be thinking, feeling or envisioning yourself and your management approach. This book can be made a study or a quick read, either way it is worth the time. 0 of 0 people found the following review helpful. review of 12 Leadership Principles of Dean Smith By Steve Rotenberg Excellent book, with valuable concepts. I recommend this book to anyone pursuing a leadership career. The principles are down to earth and can be applied in the real working world. 0 of 0 people found the following review helpful. Five Stars By Bob Thanks Bob

As a forward for the great Tar Heel teams of the late '60s and early '70s, David Chadwick had a first-hand view of legendary coach Dean Smith's winning formula on the court. In *The 12 Leadership Principles of Dean Smith*, Chadwick applies Smith's people-first methods for achieving individual success within a team framework to the business world, the community, the family, and beyond. Chadwick also draws from the recollections of Mike Krzyzewski, Michael Jordan, Rick Pitino, and many others, revealing the profound influence Smith has had upon those who know him.
