Batton Lash : The Vampire Brat: And Other Tales of Supernatural Law before purchasing it in order to gage whether or not it would be worth my time, and all praised The Vampire Brat: And Other Tales of Supernatural Law:

Dillard, Jr. Wolff and Byrd, the Counselors of the Macabre, tackle their most hair-raising case yet when a teenage vampire hybrid is outed and targeted by a young vampire hunter in training in the halls of his high school. It's a story of Buffy- proportions! Afterward, the lawyers decide to celebrate their firm's success and throw an office party that gets interrupted by a time traveling client from the future. Then Wolff and Byrd explore the Id and Ego when another young client hires the firm

after his imaginary friend destroys a large chunk of Manhattan. Meanwhile, everyone's favorite secretary, Mavis, has her own troubles to deal with. First, her pesky boyfriend Toby asks for Mavis' hand in marriage only to end up being betrothed himself to a spectral bride. Then, Toby decides to up and move to Hollywood while a crush from Mavis' past returns wanting to possibly heat things up. It looks like Mavis has got some choices to make but can she keep up her duties at the law firm while finally figuring out what she wants in love and life? *Batton Lash* takes things to the next level. But I'm not so sure if it was the right move... One of the things I enjoy so much about this series is how it skewers the horror/ sci-fi/ and pop culture genres. I also enjoy how each chapter is full of intertwining storylines but you can read each issue as a self-contained story and not be lost. But the level of soap opera antics involving love triangles, unrequited love, and sappy romances that took over some of the stories just a little too much. Plus, Wolff's sister whose become the firm's new receptionist is too much and I hope they write her off real soon. *Vampire Brat* was a little too much *Young Lawyers in Love* as opposed to a campier version of *Dark Shadows*. I haven't given up on this series, but I hope that future offerings return back to *Supernatural Law*'s original formula- QUICK!

Batton Lash, the author of "Supernatural Law" series is ABSOLUTELY THE BEST!!! The artwork is, well, art. The characters are well thought out and drawn with subtle variations of style that fit each one. The stories hold your attention and the word play is enough to delight the most discerning reader as well as anyone looking for a giggle. I rated this book as "No violence", unless you consider someone being transformed by magic as "violence." It is a shame you can only give this five stars. It should be more like fifteen stars.

By Chicago Slim
If you are a lawyer, and enjoy farcical entertainment, you'll love this.

"The straight-faced adventures of a couple of lawyers practicing in defense of supernatural creatures is more than unique: It is an idea whose time has come. With hysterically funny situations and smart, fluid dialogue, Wolff and Byrd, a really cool team of lawyers, defend vampires, monsters, and creatures from the nether world. And the stories are cunningly set in an ambience of no-kidding realism.

From Booklist
Even creatures of the night need legal aid, and lawyers Alanna Wolff and Jeff Byrd are their champions in *Lash*'s graphic novel. Wolff and Byrd, aided by their secretaries, Mavis and Corey, have their hands full, for their clients include a rambunctious vampire boy who is being persecuted by a fellow classmate, a time-traveler with patent woes, a woman whose dead lover's soul is in jeopardy, and a boy with a dual identity. If that weren't enough, all four primary characters also have their tumultuous love lives to contend with. *The Vampire Brat* takes more than a few pot shots at contemporary television shows, such as *Buffy the Vampire Slayer* (appearing here as Myrtle, the Vampire Hater) and *Ally McBeal* (Ally's desperation for a man is unabating). Following on the heels of his last graphic novel, *Sonovawitch!* (2000), *Lash*'s latest is a fun, lighthearted spoof. Kristine Huntley
